This policy is reviewed and updated annually to ensure that emergency evacuation from examination rooms at The Folkestone School for Girls is managed in accordance with current requirements and regulations.

References in this policy to ICE refer to the JCQ document **Instructions for conducting examinations**.

## Introduction

An emergency evacuation is required where it is unsafe for candidates to remain in the examination room. This might include a fire, the fire alarm sounding to warn of fire, bomb alert or other serious threat.

In exceptional situations, where candidates might be severely disadvantaged or distressed by remaining in the room, the emergency evacuation procedure may also need to be followed. This might include situations where there is severe disruption in the examination room, serious illness of a candidate or invigilator or similarly serious incidents.

- As each incident may be different, advice will be sought (if applicable) from the relevant awarding body as soon as it is safe to do so (ICE 25.6)
- Where candidates are unable to return to the building to complete the examination, the relevant awarding body will be contacted immediately for advice (ICE 25.6)

## Purpose of the policy

The purpose of this policy is to confirm the arrangements at The Folkestone School for Girls for dealing with an emergency evacuation of an examination room by defining staff roles and responsibilities and confirming the emergency evacuation procedure.

This policy ensures compliance with JCQ regulations (ICE 25) which state that centres must have a written policy for dealing with emergency evacuation of the examination room which will be subject to inspection by the JCQ Centre Inspection Service.

## 1. Emergency evacuation procedure

### Actions taken in the event of an emergency evacuation of the examination room

At The Folkestone School for Girls, the following actions (in accordance with ICE 25) are taken if an examination room has to be evacuated:

- Candidates are instructed to stop writing
- The attendance register is collected (in order to ensure all candidates are present)
- The examination room is evacuated in line with the instructions given by the appropriate authority
- Candidates are advised to leave all question papers and scripts in the examination room. Candidates are advised to close their answer booklet(s)
- Candidates are instructed to leave the room in silence
- Candidates are supervised as closely as possible while they are out of the examination room so that there is no discussion about the examination
- The time of the interruption is noted and how long it lasted
- Candidates are allowed the remainder of the working time set for the examination once it resumes
- If there are only a few candidates, the possibility is considered of taking the candidates (with question papers and scripts collected by the invigilator) to another place to finish the examination
- A full report is made of the incident and of the actions taken (and retained on file if required by an awarding body)
- 

Additional actions taken:

- In the event of a fire alarm, invigilators are trained to provide a briefing at the start of each exam session

ask candidates to stop writing and then stop the examination

invigilators are asked not to evacuate the main exam rooms, unless there is clear and immediate danger, until they have instructions from a member of SLT or the exams officer - as the site has many buildings, often the alarm may have been triggered in a remote area to the exam site. Small rooms should evacuate.

if requested/needed escort candidates from the room to the Exams fire assembly point on the field behind the tennis courts (refer to site map for location and suggested routes)

- When/if allowed to return to the examination room, invigilators allow candidates time to settle down, reminding them they are still under formal examination conditions and that they must not open their answer booklets until instructed to do so
- Invigilators announce clearly to candidates when they may begin and how much time they have (the examination will formally restart at this point)
- Invigilators record the time the examination(s) restarted and amend the displayed finishing time(s) for all candidates to see
- Invigilators are trained to record as much detail on the exam room incident log when able to do so (ensuring candidates are continually supervised and giving complete attention to this duty at all times) and to ensure the exams officer is fully briefed at the end of the examination(s) to enable a full report to be submitted to the awarding body/bodies
- Where not allowed to return to the examination room, or the decision is made by the appropriate authority that the examination(s) cannot be resumed, the centre's examination contingency plan will be invoked and invigilators/candidates briefed accordingly at the time

Further actions taken:

Make a report of the incident and the action taken on the exam room incident log and make a full report for the Exams Officer who will forward to the relevant awarding body for special consideration purposes
